

The Eagles believe the path to sustainability is a journey, not a destination. With the opening of Lincoln Financial Field in 2003, the team's road to becoming an eco-friendly operation began.

What started with a blue recycling bin under each employee's desk has grown into a company-wide sustainability program that is reducing the organization's overall impact on the environment in a financially-responsible manner.

With the help of partners and fans, the Eagles have been able to develop a multi-year curriculum and action plan that incorporates green energy production, recycling, composting, energy efficiency and reforestation, among other ventures.

The Eagles, who wear the color "green" with pride, are committed to serving as environmental stewards for a community that gives so much to them throughout the year.

SOLAR & WIND ENERGY

In March 2012, the Eagles and NRG announced a sustainable energy partnership, which made the organization's vision of clean power at Lincoln Financial Field a reality. When the project became fully operational in February 2013, it allowed the Eagles' home in Philadelphia to be among the greenest major sports facilities in the world.

SOLAR & WIND STATISTICS

- One of the largest solar power systems in the NFL
- Produces around four megawatts of energy annually
- Four megawatts equates to roughly 33% of the team's annual energy usage and is about six times the amount of power needed for all of the team's 10 home games each season
- Through the purchase of renewable energy credits, 100% of the team's operations are powered by the sun and wind

WIND TURBINE FACTS

- 14 total
- Height: 15 feet
- Width: 9.8 feet
- Weight: 1,016 pounds

SOLAR PANEL FACTS

- 11,108 total
- 274,848 total square feet
- North Parking Lot: 8,096 panels
- Roof: 1,452 panels
- Solar Wing: 1,380 panels
- 11th Street Pavilion: 180 panels

GO GREEN PARTNERS

SUSTAINABILITY & ENVIRONMENTAL BIRDSEED

- Lincoln Financial Field's annual electricity usage has been cut by more than 50% since 2003
- Through the team's energy-from-waste program, the Eagles divert more than 99% of their waste from landfills
- Became the first pro sports team to achieve ISO 20121 certification, an international standard for sustainability procedures
- The installation of water filtration fountains at the team's facilities have saved more than 97,000 water bottles since 2015
- With the help of The Conservation Fund, the Eagles offset 100% of all team travel through the "Go Zero" program
- The team supports reforestation projects by planting trees in various cities, including the "Eagles Forest" in Bensalem, PA
- Cups and flatware are created from bio-plastics which biodegrade in just 45 days
- To conserve energy, lower-wattage light bulbs and automatic sensors/timers have been installed in team buildings
- Two onsite bio-digesters help decompose pre-consumer food waste to eliminate the need for landfill disposal
