

EAGLES AUTISM FOUNDATION

Established on September 8, 2019, the Eagles Autism Foundation was formed to centralize all of the team's autism activities into one organization, while strengthening its core mission of turning autism awareness into action. Led by Chairman and CEO Jeffrey Lurie, the team's commitment to raising funds for autism research and care has grown exponentially, raising more than \$7 million since launching the Eagles Autism Challenge in September 2017.

The Centers for Disease Control and Prevention estimates that one in 59 people under the age of 21 living in the United States are on the autism spectrum. Autism is a complex neurological and developmental condition that expresses itself differently in each individual. While it has become one of the fastest-growing developmental disorders in the country, autism has historically been underfunded, misunderstood, and under-researched.

By providing critical resources, supporting medical discoveries, and helping to position Philadelphia as a base for scientific breakthroughs, the Eagles Autism Foundation is transforming the lives for individuals and families affected by autism.
